Info

The new Sputnik series, developed in collaboration with the Russian company Memotek, was born paying particular attention to the development of an object, which had the main feature is the marked utility in situations of survival or danger.

Sputnik in Russian means "travel companion" and this is precisely the purpose of this knife particularly flexible: being an excellent help in all conditions. The rubbery handle provided of grooves makes the grip comfortable and safe, it is also equipped with a glass breaker at the end.

The surface treatment of the blade is in cerakote, this coating allows both a good seal of the wire is an easy restoration of the same. The sheath is equipped with a spring system and straps included.
