CORRADO
DAL 1908

Info

L'Abitare was created in Milan thanks to the creativity and work of both Italian and foreign designers, who wanted to create and give to the public fine ideas and items for contemporary life. To inhabit a house means mainly to live it, turn it into the mirror of your own soul, the frame to your personality. This is why L'Abitare always pays great attention to everything is around us: ideas and colours, shape and matter. A kind of beauty which comes to us from the past, from a long tradition of shapes, proportion and colours typical of great Italian architectures.
