and serving accessories**

WMF - Pourer 8 cm

cod. **06 58526030**

Material: stainless steel

Info

With the WMF spout you can pour elegantly and without dripping, simply press the spout into the neck of the bottle. The elastic band makes it stable and the wine only flows through the opening of the spout. The wine will be decanted directly from the bottle into the glass. The WMF spout can also be used as a stopper to protect the contents of a bottle of wine that has begun by sealing it.

Material used Cromargan® stainless steel 18/10 polished, silicone.
Dishwasher-safe.
