Antica Coltelleria Tavella / Torches Ledlenser - NEO6R black LEDLENSER cod. **500983**

Info

With the NEOGR make your entry into the night runners club. Because anyone who regularly takes a ride in the dark needs a headlamp, which, thanks to the Mi 240 lours 30 meters

Light functions
These settings make the difference:

Power - great light output for every situation Low Power - energy saving light during long use, reading and working without glare Blink - automatic sending of light pulses at a regular distance

Switch
This is how this Ledlenser turns on:

Front Switch - a switch located on the head of the flashlight for one-handed use

Other functions
The peculiarity of this Ledlenser:

Rear Light - a red rear light so that you can also be seen from behind Transportation Lock - prevents inadvertent activation of the flashlight

IP protection degree This Ledlenser features the following protection:

IPX7 - Prevents the penetration of water during a complete immersion for a limited time (one meter deep for 30 minutes) IP5X - Protection against dust deposits

Low Battery Warning - warning in case of low charge Charge Indicator - displays the current battery charge status

By using rechargeable batteries, you not only safeguard your wallet, but also the environment. Because ordinary batteries need up to 500 times more current
