machines and accessories**

Marcato - Classic square stamp 48mm

cod. **SC-Q48-CLS**

Info

Materials

The body of the stamps is made of die cast aluminium, a solid food-grade material which guarantee a clean cut of the pasta sheet.

Wood

The handles of the stamps are made of solid wood. The wood has been chosen because it is harder and more compact compared with other types present on the market. This decision has been made to ensure product durability in time. Moreover, its distinctive colouring makes the item aesthetically unique and matched to any kitchens design.
