Blade: M390 stainless steel

Hardness: HRC 58-60

Blade Coating: satin

Handle: titanium+natural micarta

Screws: stainless steel

Designer: Jens Anso

Info

Root is a slip joint folding knife with satin Bohler M390 steel blade designed by the famous Jens Anso.

The handle, in sandblasted Ti6Al4V titanium with natural micarta canvas insert, makes it long-lasting and easier to grip thanks to friction. The three holes on the blade, positioned in the best lever point for an easier opening, replace the classic opening "nail" as well as making it more controllable. The spring and screws are in stainless steel to prevent their oxidation.

With its classic and timeless lines it is practical and light, easily transportable and ideal for all uses, both outdoors and indoors. It is sold with the exclusive leather sheath with magnetic clip that allows you not to "lose" it inside the pocket or used as a belt loop.
