**Weight:** 59 gr - 2.08 oz

**Blade:** 420J2B steel

**Hardness:** HRC 54-56

**Handle:** FRN NYLON® reinforced fiberglass - black

**Info**

The Rescue Emergency Tool has been designed to be used in an emergency for cutting ropes, parachute ropes, belts, fishing nets etc. On the back of the sheath there is a clip that allows it to be placed in different positions in combat jackets, belts and belts and diving jackets. The hole in the sheath allows the use of a possible cord so that it can be used as a neck knife worn around the neck.
