Blade: N690Co stainless steel

Blade Coating: satin

Handle: canvas Micarta OD green

Info

Yeah, we know it looks "different." But that's just fine in our book, because its a design that simply works well, and feels great in hand. To maximize the "tool" potential of the GMF3, we went with a straight-back blade with full flat grind, and jimping in just the right place, allowing for maximum pressure on the blade spine while cutting. As we wanted to make the GMF3 a **versatile indoor / outdoor tool knife**, we chose canvas Micarta for the scales to provide a **secure grip even in wet conditions**. And for those who want to go Au Naturel, the scales are easily removed, giving you a **fantastic skeleton knife**. The sheath for the GMF3 is a no-nonsense leather belt sheath handcrafted in Italy, and works equally as well with or without the scales on the knife.
