Forever - Moka "Prestige" woody 3 cups

cod. **120239**

Material: Aluminium Info

The Moka Prestige Woody stands out thanks to its refined design: the upper part is in classic aluminum, while the lower part is in an elegant black. In addition, the food-grade aluminum mocha is ideal for all types of cookers except induction. The aluminum coffee makers are not dishwasher safe. For cleaning, clean hot water is sufficient to ensure that the patina inside is well preserved.
