Marcato - Biscuits kit

cod. **SC-KIT02-CLS**

Info

Materials

The body of the molds is made of die-cast aluminum, a solid material for food that guarantees a clean cut and the dough.

Wood

The handles of the molds are made of solid wood, this was chosen because it was solid and compact. The decision was made to ensure durability of the kit. Furthermore, its particular color makes the item aesthetically unique and can be combined with any kitchen design.

- Flower 70mm
 - Star 65mm
