Blade Coating: Black PVD stone washed

Handle: G10 black

Clip: Black idroglider stainless steel

Spacer: Green anodized aluminium

Screws: Black idroglider stainless steel

Designer: Les George

Made in Italy

Info

ANZU is the new knife from Fox Knives inspired by the Mesopotamian religions creature; powerful figure who challenged the authority of the gods by stealing the Table of Destinies from the god Enlil, an object that, when possessed, bestows the power to control the Universe. Through this act of rebellion Anzu became an example of power, strength, precision and determination, characteristics that also distinguish Fox Knives' new knife designed by Les George.

Les George designed the ANZU to have maximum handle ergonomics ensuring a positive grip, the drop point MAGNACUT blade maximizes cutting ability and stain resistance in the steel. The VERSO Lock opening mechanism gives this knife maximum efficiency. The dual thumb studs and VERSO lock make the knife easy to open and close with either hand. The clip allows easy carry making the knife always ready for use.

Available in four versions: black PVD MAGNACUT blade with bronze oxidized aluminum handle; black PVD MAGNACUT blade with 3K TWILL carbon fiber handle; stone washed MAGNACUT blade and sky-blue oxidized aluminum handle; and stone washed black PVD MAGNACUT blade with black G10 handle.
