Clip: stainless steel 420J2B - reversible

Info

All A.L.S.R. knives include the L.A.W.K.S.® (Lake and Walker Knife Safety) locking system, designed by noted knifemaker Guild members "Ron Lake" and "Michael Walker". With a flick of the L.A.W.K.S.® lever, the knife becomes a virtual fixed blade. The liner-lock is virtually impossible to release, even during the most vigorous use. All A.L.S.R. models include a NYLON Sheath.
